

BKT 031

Wall/Ceiling Mounting Bracket

A sturdier and more robust option for Williams Sound IR mounting hardware and it mounts directly to the junction box when running conduit. It features a ball and socket design with 360° swivel and 90° tilt capability, 1/4"-20 male stud mount, 7" extension, and the ability to conceal connected cables. This mount is able to support greater weight load, and can also be inverse mounted.
