

Uni-Directional Headset Microphone

MIC 100

USER MANUAL

This lightweight Headset Microphone is a highly sensitive, electret condenser microphone with wide frequency response for crisp, clear sound. It's aesthetic, hands-free design is ideal for anyone who uses a microphone while speaking or performing, such as a vocalist, coach or teacher.

The microphone is a great companion to many of the Williams AV wireless transmitters. You can also use the microphone with most PC sound cards that have a 3.5mm diameter electret microphone input jack.

Your microphone's features include:

- Hands-Free Headset - keeps your hands free for other tasks while you speak or perform.
- Gooseneck Microphone Stem - lets you easily adjust the microphone's position as you wear the headset.
